## PARTNERSHIP PROGRAM – ASIA

**Technical Filters has established exclusive partnership with Filter Plus of Korea to promote APEX membrane filter media. The president of Filter Plus Mr. T.Y. Choi has delivered significant orders. Our partnership has supplied more than 100,000 square meters of our 800 g/m<sup>2</sup> APEX Glass membrane filter media for the waste to energy industry. We look forward to continuing our exclusive partnership with Filter Plus for the Korean market.**

**A partnership in India led to many successes for our APEX PTFE membrane program at Gujarat Ambuja Cement Group, Holcim India and many others.**

**Our participation in Powtex Tokyo 2008 exhibition has yielded major dividends by opening new avenues for partnerships for the Japanese market. We intend to nurture these new opportunities, leading to increased business in the Japanese market.**

**Technical Filters has shipped goods to India, Indonesia, Japan, Korea, Malaysia and Kazastan - at last count.**
